CLINICAL EXPERIENCE

Compulsory Rotatory Intern (CRI) February 2025 – Present

Chettinad Dental College & Research Institute, Chennai

- Assisted in 100+ dental procedures including cavity preparations, composite restorations, and extractions under expert supervision.
- Conducted patient consultations, using clear layman language to explain complex diagnoses and treatment plans.
- Performed oral prophylaxis, scaling, and root planing for patients with periodontal conditions.
- Collaborated with senior dentists in fabrication and adjustment of complete and partial dentures.
- Developed strong rapport with paediatric patients using interactive behaviour management techniques, significantly reducing chair-side anxiety.
- Completed Basic Life Support (BLS) certification — trained in emergency response protocols.

CLINICAL SKILLS

- **Restorative Dentistry** — Cavity preparation, composite fillings, crown placements
